

Ahmed Wagih Elnabarawy

Full Stack Software Engineer

✉ ahmedwagih087@gmail.com ·  linkedin.com/in/ahmedwagih02 ·  github.com/AhmeWagih · 📞 +20 155 645 8371
Cairo, Egypt

Profile

Full Stack Software Engineer specializing in building scalable, high-performance web applications across modern JavaScript ecosystems and backend systems. Expertise in transforming product ideas into production-ready solutions using React, Angular, Vue, Next.js, Node.js, Django, and Laravel. Strong focus on system design, performance optimization, and clean architecture. Passionate about open-source contribution and developing impactful, maintainable software products.

Education

9-Month Diploma – Open Source Application Development

Oct 2025 - Present

Information Technology Institute (ITI) – Zagazig Branch

Bachelor of Computer Science

Oct 2021 - Jun 2025

Faculty of Computers and Information – Zagazig University

GPA: 3.1/4.0 – Grade: Very Good

Graduation Project: Vision AI Chrono

Grade: Excellent

Work Experience

KimCam

2025

Frontend Engineer

Remote

- Worked on a full educational platform, contributing to teacher dashboards, content systems, and video management workflows.
- Built scalable UI modules for managing courses, student tracking, and media libraries.
- Collaborated with cross-functional team to deliver a production-grade educational platform with responsive UX.

Internship

Qumra

2024 – 2025

Frontend Developer

Alexandria – Remote

Digital Egypt Pioneers Initiative (DEPI)

2024

React Web Developer

Zagazig – Hybrid

Projects

IRB Digital System — Research Approval Platform

GitHub

PHP, MySQL, Vue, REST API, JWT, TanStack Query

- Built a research approval platform serving 500+ users and reduced approval time by 50% through workflow automation.
- Developed a scalable PHP (OOP/MVC) backend with REST APIs and JWT-based role management for 5 user roles.
- Created a Vue SPA with Paymob payments, blind peer review, PDF generation, and email notifications.

Vision AI Chrono — Video Analysis and AI Processing Platform

GitHub

React.js, Next.js, ReactFlow, Node.js, FastAPI, Flask, OpenCV, Docker

- Built an AI-powered video analysis platform with dynamic node-based workflows using ReactFlow.
- Developed scalable backend services with Node.js, FastAPI, Flask, and OpenCV for AI video processing.
- Integrated Dockerized microservices with PostgreSQL for scalable storage and production-ready deployment.

Skills

Frontend Development: React.js, Next.js, Angular, Vue.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Shadcn UI, Framer Motion

Backend Development: Node.js, Express.js, Django, FastAPI, Laravel, REST APIs

Databases: MongoDB, MySQL, PostgreSQL

Programming Languages: C++, Java, JavaScript, Python, PHP, Go, Rust, Ruby

Tools & DevOps: Git, GitHub, Docker, kubernetes, Postman, Vercel, Vite

Software Concepts: OOP, MVC, Basic System Design

Personal Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Self-Learning

Languages: Arabic(Native), English(Conversational), German(Conversational)
